Porpoises are the air breathing mammals. They do not contain air bladders. Porpoises swim incredibly fast. And they swim at the rate of 30 miles per hour and fast. Some of the lines of porpoises supported various things that help it to swim fast. First its stream-lined body which supported it to swim fast. Out of this porpoises have resilient material and spongy body which help it to swim fast. Apart from these porpoises have the power to undulate their body according to water turbulence which escapes 90% resistance of water.

All these things are presented in porpoises which helps it to swim fast.

Andaman was the notorious place. The people of mainland thought that it was the place only for the prisoners. In Andaman those people were used to be sent- which were sentenced from their life that their atmosphere did not affect the children. They have given all the opportunities to a good life. One reason is also that- All the prisoners were treated fairly so it did not effect on children. Children have given scholarships and the good opportunities of study.

Since the atmosphere of Andaman was not actually of the prison. So it is naturally that- then it might be affect the childrens.

The poet name "Richard middleton" express his views that he was passing from a road and he saw a dead child and he went towards him. The poet thought that- the child was not actually dead he was only pretending to be dead. He was laying and roses was scatter all around roses to him. The poet said that- the child was looking so fresh that the roses.

The roses are looking so dead than a child. Child was looking fresh. The poet beautifully compares the child to the roses. So poet said that-

"And No more dead than they"

The poem "On the country" was written by "W.H. Davies". Davies said that country life is much better than city life. In cities life we see beggars in every roots. Poet wants to escape the human suffering because he saw everywhere in cities children cry for food and the persons are homeless misery so the poet had no more money to solve these problems. He escape from human suffering as he had no more means that he would solve these types of problems.

That's why poet escape from human suffering

 - (b) Illiteracy.
 - (c) Tropical climate.
- (iii) The problem caused due:

Population

 - (a) Unemployment.
 - (b) Poverty.
 - (c) low standard of living.
- (iv) The measure should be adapted to check the population
 - (a) Literacy.
 - (b) Family planning programme.
- (v) conclusion.

B
S
E
M
P

India is a vast country. Our Country is facing many serious problem we daily read flood, famine, etc. Our Govt. is doing its best to solve these problems. Some of these problems are hindering to progress of our country.

One such problem is population problem. Geologists estimated that the population of India is very discouraging. It is multiplying very rapidly. At the end of 20th century it would be 908 Million and that would be more explosive than that of created by a atom bomb.

One such cause of growing population is child marriage. In India the marriageable age is very less, inspite of it the child marriage is going on which become a cause of population growing.

Illiteracy is also another cause of growing population. The peoples are illiterate. They Not know the harm caused by population.

So it is said that :-

"Illiteracy is the main cause of population growth"

Indian continent have tropical climate that's why the people's are mature early and ready for fertilization So it is also a cause of population growth.

Due to the population growth one such problem is arise the problem of Employment. It is naturally the if the population will grow than it would rise the problem of unemployment.

Due to increasing population poverty is also increase. People are becoming poor. They are not able to feed their childrens.

So it is said that -

"Population is not only a single problem but it creates numerous problem"

Due to the population growth the standard of living of peoples are becoming low and environmental problems are also began to increase.

Due to the population growth our environment is becoming polluted

For solving of this:

type of serious problem our country is doing its best. If our Govt. wants to solve this serious problem so Govt. should be keep their eyes on literacy. The more the rate of literacy will go high than the people would understand the harm caused by population growth.

Government should awake to solve this problem.

पृष्ठ के अंकों का योग

Govt. should be ~~think~~ that how would this problem solved. Govt. should be attained more and more family planning programme and facilities to the people who are follow these types family planning programme.

So,
we should keep our hands together to solve this problem.

Now the population problem becoming most dangerous problem. If this type of population will be go on than there would be no chance to live. So we should face it and try to minimise this danger. If we would work together for this problem that it would be solve or not.

88^W 89
