## 1. Introduction →

The word 'news' is made up of four letters - N, E, W and S. Each letter symbolizes one direction. 'N' stands for 'North', E stands for 'East', W stands for 'West' and S stands for 'South'.

Hence, newspaper is a paper that contains news from all directions. A newspaper collects informations about the happenings in the world and prints them on a paper. Newspapers reach us by aeroplanes, ~~to~~ trains, buses and even carts. The hawkers distribute them from door to door.

Hence in a modern democratic world newspapers play an important role.

### 5 Conclusion →

The editor of a newspaper has a great responsibility. Newspaper is a powerful weapon. It should be handled carefully. Rumours and sensational news create a nasty atmosphere. Newspapers must present the constructive and objective matter before their readers. Their criticism should not be biased. They should be impartial in their news and views.
